AQUA FLO®

High-Flow Whole House Filtration System

160197 High-Flow Dual Stage 20BB SED, Carbon, 3/4" In/Out

160198 High-Flow Dual Stage 20BB SED, Carbon, 1" In/Out

This whole-house filtration system provides economical, high flow solutions for sediment, taste and odor removal.

AQUA FLO® High-Flow Whole House Filtration System

Features:

- **High-Flow Dual Filtration System**
- **Up to 70,000 Gallons of great tasting water**
- **Flow rates up to 8 gpm**
- **Large 20" Filters for long lasting performance**
- **Dimensions: 8" deep, 16 1/4" wide, 27 1/2" high**
- **Weight: 21 lb.s (9.5 kg.)**
- **Inlet/outlet pressure gauges indicate when filter replacements are required**
- **For municipal water supplies.**

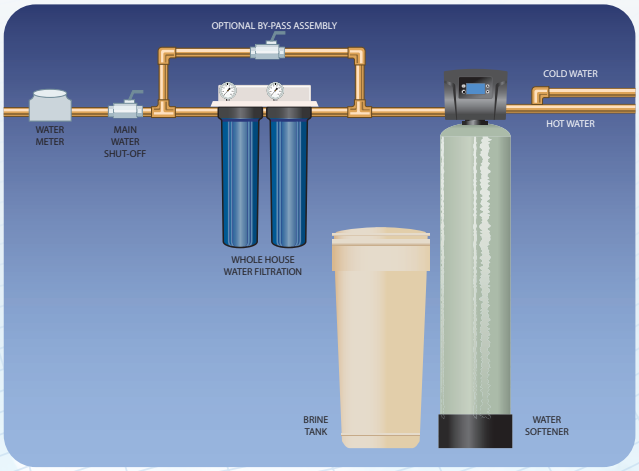
Dual Stage Filtration:

Filter # 1– Polypropylene 5 Micron
Melt Blown (PPMB) Sediment Filter
Cartridge Item #26239

Thermally bonded polypropylene microfibers for higher filtration efficiency performance. The chemical resistant material is and not prone to bacterial attack and will not add any taste, color and odor to the water.

Filter # 2 - Radial Flow (RF) Granular Activated Carbon
Cartridge Filter Item #26256

The perfect solution for effective reduction of chlorine, bad taste and odor. These filters provide low pressure drop and fewer carbon fines.



Item #	Model #	Size	Micron	Capacity (Gallons)	Flow Rate (gpm)
26239	PPMB-5-20BV	4.5" x 20"	5	NA	20 gpm
26256	RF-20BV	4.5" x 20"	NA	70,000 gallon @ 4 gpm	8 gpm
